Product Survey

In order to provide the most competitive pricing and the most appropriate solution, Regulus would like to invite you to fill out this questionnaire. All the questions are designed to give us knowledge about your products, requirements and schedules.

➢ **Discovery**

How did you find our company? If through a B2B platform, which one? Key words?	

➢ **Project details**

Product name	
Application	
Product life-time (please specify the expected quantity and duration in year)	
Has this product been produced before? If so, please specify the location.	

➢ **Quantity & Target price & Lead time**

Sample QTY (if required)	
Desired lead time for sample (if required)	
Mass production QTY per order	
Desired lead time for mass production	
Target price per unit for mass production	
Estimated annual usage	

➢ **PCBA (electronics assembly)**

Could you confirm if the electronic components listed in the PCBA BOM include any registered parts? If so, please list the registered items and relevant details in your email.	

May we disclose the end customer's name to the original manufacturer?	
Is programming or testing required?	
Estimated labor time for programming and testing (in minutes)	
Is conformal coating required? Material requirements for coating? Coating on one side or both sides? Full surface coating or selective masking?	

➢ **Box build (mechanical parts and assemblies)**

Is box-build required?	
Estimated labor time for box-build assembly (in minutes)	

➢ **Compliance Certificate & Approval (e.g. UL, RoHS, ISO13485, etc.)**

Please specify whether the assembly should meet Class 1, Class 2, or Class 3 standards according to IPC-A-610.	
Type of certificate/approval required?	

Please ensure to fill out the form with the relevant details and email it along with the RFQ file to us. Thank you!
